LOCATION:

The Pensjonat Dychów is located on the Zielona Góra–Gubin highway, close to the western border.

Guests can choose single or double room with air conditioning. The rooms are equipped with refrigerator, satellite TV, radio and telephone.

The hotel also boasts a covered swimming pool, a power gym, a sauna, a solarium and a fitness room. Equally one can relax with game of billiards. The Guest Center can offer an 18-hole mini-golf course, tennis court and basket ball court, the modern surface of which ensures a very comfortable and safe game. The surrounding woods give us the opportunity to organize hunts, picnics, mushroom collection and rides on horse-drawn carriage on horse back. Moreover, being located in the immediate neighborhood of reservoirs creates a healthy microclimate and attractive cycle paths and walks.

CALL FOR PAPERS

2ND INTERNATIONAL WORKSHOP ON

DISCRETE-EVENT SYSTEM DESIGN

DESDES'04

Organized by

University of Zielona Góra,
Institute of Computer Engineering
and Electronics

UNIWERSYTET ZIELONOGÓRSKI

SCOPE

DESDes'04 International Workshop is the second workshop on Discrete-Event System Design organized by University of Zielona Góra, Poland. It continues experience of fruitful international co-operation in the subject with the view of extending the scope and fields of interests.

The aim of the Workshop is to bring together researchers from universities and industry and provide a platform to report and discuss new topics in digital system design and digital signal processing.

The Workshop is devoted to subjects concerning design, analysis and implementation of discrete-event systems, formal design methodology, digital signal processing and related topics.

TOPICS

- LOGIC CONTROLLER DESIGN;
- PROGRAMMABLE LOGIC;
- HARDWARE DESCRIPTION LANGUAGES (HDLS);
- PETRI NET-BASED DIGITAL DESIGN;
- HARDWARE-SOFTWARE CO-DESIGN;
- SAFETY CRITICAL COMPUTER CONTROL APPLICATIONS;
- REAL-TIME SYSTEMS ISSUES;
- DIGITAL SIGNAL PROCESSING;
- DIGITAL IMAGE PROCESSING AND VISUALIZATION;
- MICROPROCESSOR SYSTEMS.
